

PRE-WASH

- Heavily stained clothing items should be soaked in lukewarm water before washing.
- Close zips, velcro closures and buttons prior to washing.
- Do not wash apparel with sharp corners or open Velcro closures of other items.
- Wash with like colors.
- Always wash printed or customized items inside out.

WASHING

- Please note the special information on the care label of the item.
- Please use proper laundry detergent.
- Please avoid the use of fabric softener which can cause residue in the fibres and affect the functionality and moisture control of the textile. Also the elasthan threads can become brittle.
- Please avoid overloading the washing machine and excessive spin cycles.

DRYING AND IRONING

- Pull into shape after washing.
- Turn inside out before putting in dryer
- Do not dry functional apparel and customized clothing in dryer.
- Do not iron the applications or prints on clothing.

IMPORTANT

- Please note this information is for household laundry.
- Customized clothing has to be handled and washed with care.
- For further information on textile customization please go to pages 354-355.
- Please understand that we will not take any responsibility for damages caused by improper care.
